DRUMMING UP BUSINESS for the United States Navy Band concert to be held in the High School auditorium Saturday, Oct. 29, are two enthusiastic stick wielders from the Boys Club, as sales-minded elders swap duets and long-green in the background. Dell Sweet, booming the base drum, and Steve Anderson on the snare, set a nautical cadence for Ray Lockwood, Boys Club executive director, left, and Don Gountry, Boys Club president. The pair emphasize proceeds from the Kiwanis-sponsored concert go to the Boys Club, which is primarily supported by the Community Chest. (Desert Sun Photo)

GONZALES' FATE IN HANDS OF JURY

The fate of Jose Angel Gonzales, confessed slayer of 10-year-old Juanita (Janie) Zepeda, was placed in the hands of a jury just before noon today.

The jury of 10 women and two men has been asked to decide whether Gonzales, a 27-year-old Palm Springs gardener, will serve life in prison or go to the California gas chamber.

DEFENSE ATTORNEY, Public Defender George Hooten, and Chief Trial Deputy District Attorney Roland Wilson, each finished their summaries to the jury by 10:30 this morning, and Judge Hilton McCabe sent the 12 jurors to the jury room about 11 a. m.

Gonzales took the stand yesterday afternoon and speaking in a quietly persistent voice, told the court and the jury that "I feel sorry" for the killing of 10-year-old Janie Zepeda. In answer to a question by public defender George Hooten — "Does it bother you very much," Gonzales replied "yes."

EQUALLY PERSISTENT, but in a level voice, Gonzales denied the implications of sexual molestation as a motive for the killing, which he stated was unpremeditated.

"I killed that little girl, but I did not attack her," he said.

Gonzales related on questioning by public defender George Hooten that he had entered the house and found Janie seated on a black sofa in the living room. He asserted he had not entered the child's bedroom until after the slaying when he returned to take the money box.

AFTER TELLING the court and the jury that he had asked Janie where her parents were, he related that he hit her with his open hand, walked to his truck, and started to drive away.

"But I returned to the house," Gonzales said. He recalled he had picked up a large steel hinge, with a piece of wood attached, and carried it into the house with him. He denied any clear motivation when he returned to the house.

Gonzales told the court he found Janie then curled in a chair, face down.

"She didn't look up," Gonzales testified. He continued that he struck her twice, and that the child then slipped off the chair to the floor.

GONZALES SAID he looked at the child lying on the floor three or four minutes, and then tied his handkerchief around her neck, to keep blood from his own clothes. He then picked up the girl,

Locally, he was a member of Thunderbird Country Club, O'Donnell Golf Club and Shadow Mountain Club. He was a 32nd degree Mason.

SURVIVORS INCLUDE his widow, Betty; two sons, Robert E. Townsend of San Diego and Jeff Townsend, Jr., of Riverside; one daughter, Mrs. Mary Ellen Creelman, Seattle, and one sister, Mrs. Frank Boice, St. Petersburg, Fla. He had been a resident here for five years.

Idyllwild Man Wins Top Cooking Prize

Defeats 25 Other 'Cooks' In Honolulu

Special to The Desert Sun
HONOLULU — Idyllwild bachelor Bob Balzer has won the second annual American Cookout with a flaming breast of chicken concoction that widened the eyes of a team of food authorities judging the competition.

The 48-year-old Balzer, who is an ordained Buddhist priest and director of a meditation center near his Idyllwild home, took the \$10,000 first prize from a field of 25 outstanding male cooks. All the contestants were married.

Actress Joan Crawford Steele presented the prize to Balzer, who whipped up the flame-topped creation in just 35 minutes.

President of the Los Angeles Fine Foods and Wines Society, Balzer has been decorated by the King of Cambodia for improving relations between the U. S. and that nation and has also served as a special correspondent for a wire service during his tours of Southeast Asia.

The \$10,000 prize money is to be invested with the Idyllwild meditation center the recipient of the income, Balzer said.

CHARLES JAMESON, center, candidate on the Republican ticket for Congress from the 29th Congressional District, is pictured in Palm Springs yesterday as he attended a Rotary Club luncheon at the Chi Chi. Youngsters to Trick or Treat For Cash Here

When Palm Springs school kids come "trick or treating" at Village homes Monday evening, they'll bypass the usual candy and cookies, apples and cakes.

Instead of the goodies, the kids want cash.

The money is not for their own piggy banks, however, but for a gang of other children they've never seen.

From 5-7 p.m., Monday, elementary age students here will perform small milk cartons — marked UNICEF Children's Halloween Fund — at every door.

From 8-8 p.m., as the youngsters arrive back at the school starting points, City Recreation Department parties will follow the return of the cartons.

The Village tykes will get their treat anyway — and so will many children throughout the world, in the form of milk and medicine.

Funeral Rites Set for Burn Victim at Indio

INDIO — Funeral services for Thomas Henry White, who succumbed yesterday from burns incurred when his tri-axle dump truck rolled over and burned on Highway 111 near Cook Road, will be held at 1 p.m., Friday, in the FitzHenry Funeral Home Chapel.

Rev. Fred Strathdee, pastor of the First Methodist Church of Indio, will officiate at the ceremony.

White died in Casa Hospital yesterday after futile attempts to save his life. Hospital officials said that his body was 96 per cent burned.

JAMESON STARTS 'UPHILL BATTLE'

Terming himself the "underdog," Republican Congressional candidate Charles H. Jameson today prepared for an intensive "uphill battle" to unseat his Democratic opponent, incumbent D. S. Saund.

The 36-year-old Corona citrus grower and businessman has spent the past two days in the Desert area, and now is preparing for a final swing throughout the entire district, which comprises Riverside and Imperial counties.

"MY OPPONENT'S bitter personal attacks on me are an indication that he knows he has trouble, and that people are concerned about his representation or lack of it," Jameson continued.

The Republican candidate cited the New York Times as saying that Saund only lived in this district when he is campaigning, and that otherwise he makes his home in Hollywood, and added, "If the people of Hollywood want to send him to Congress, that's up to them."

JAMESON ATTACKED his opponent's record:

—On the 10 big issues chosen by COPE, political arm of the AFL-CIO, he voted with them 10 times, or 100 per cent.

—For big government spending.

—For labor legislation.

—For welfare state.

—BRACERO PROGRAM, trying to ride the middle by endeavoring to please both big labor and the farmers.

—Ineffectiveness, introducing 69 bills in four years, five of which passed.

—Inability to stop cutbacks of government bases in this district, when we need all we have for growth.

—Failed to secure action on date and nut and tariff protection, and came out against local interest on water.

JAMESON THEN cited his own

The evening's activities will include entertainment, a dog show, a fashion show and a dinner dance.

Answer Given at Geneva

GENEVA (UPI) — The Soviet Union today protested Vice President Richard M. Nixon's announced intention to impose a Feb. 1 deadline on the nuclear test ban talks if he is elected president.

After today's 250th session of the talks Soviet delegate Semyon K. Tsarapkin said the Soviet Union was willing to hurry up and conclude a treaty, but that the United States position "does not permit it."

HE POINTED out that Nixon, as vice president, was part of the present U. S. administration.

"I have real doubts that it is Nixon's real wish to conclude a treaty quickly," he said.

"My impression is that Nixon is interested in beginning nuclear testing again soon, not in concluding a treaty."

Since the beginning of the talks Oct. 31, 1958, the United States, Britain and the Soviet Union have entered into an unpoliced tacit test ban.

WEDNESDAY NIGHT in Toledo, Ohio, Nixon said that if he is elected president he would impose a Feb. 1 deadline on the talks. He said he would send Henry Cabot Lodge to Geneva to negotiate a treaty within 60 days.

He said that if it looked as if a treaty was "within sight," he would be willing to meet Soviet Premier Nikita Khrushchev at a summit conference to conclude the treaty.

Nixon also said the United States had evidence of a significant seismic disturbance in the Soviet Union which might have been a secret nuclear test.

But western conference sources indicated that the disturbance might have been a chemical explosion set off by the Russians for industrial purposes.

Texas Braces For Additional Flooding Today

By United Press International
South Central Texas braced today for a predicted three days of generally heavy rain that threatened to bring more swirling floodwaters to the area.

Floods have already driven more than 3,000 from their homes in Rio Grande City and Kenedy, southeast of San Antonio.

Damage at Kenedy, a town of 5,000, was estimated at \$500,000, and at least two deaths were blamed on the floods.

Rain was forecast today for much of the eastern portion of the nation, from the upper Great Lakes area to New England and south through the Carolinas. Scattered showers and some snow flurries were predicted in the central Rocky Mountains.

Weede Announced For Cherry Blossom

By GEORGE LAINE
The Cherry Blossom Opera Company, which has already caused Village hearts to pound a bit faster with the promise of full scale opera here—beginning next month—today revealed that Robert Weede, the San Francisco Opera Company's brilliant star, will be featured in their initial production on Nov. 20.

Contractual arrangements to bring Weede to the Village were completed last week, the Cherry Blossom company notified, and that gives the founding musical group its first real talking point.

UNTIL NOW, IT has been a rather speculative thing. There was the announcement of organization, the list of operas to be performed and some other announcements as well.

But operas in this nation are operated under the "star system" and although that is sometimes unfortunate, it nonetheless allows a reasonably accurate gauge on how high a degree of excellence one may expect from the presentation.

Weede's name has been synonymous with great singing ever since he joined the San Francisco company. At last, we'll be able to hear him without that embarrassing trip to Los Angeles to dull the senses.

THE CHERRY BLOSSOM people have also announced that contractual arrangements have been completed with such other personages as Robert Merrill, the Met's great star; with Dolores Mari, another superb voice from the Bay Area troupe; with Elaine Malbin, the NBC Opera Company's first-

most star; with Renata Tebaldi, La Scala's beautifully-voiced soprano; with Russell Scarfo, the young man whose voice rocketed the Teatro Massimo di Palermo to sudden prominence; and with a large list of others. Cherry Blossom's own Giovanni Milio is also scheduled for substantial work in the seven operas to be performed here.

(Incidentally, although you must make this for what it's worth, the Cherry Blossom administration is also in contact—such as it may be—with Maria Callas, the divinely-voiced soprano with the brat manners. Since La Callas is on the outs with every other opera company in the United States, it is not without possibility that she could consider a Palm Springs engagement.)

ADDED INFO FOR the council when it deliberates (we trust) the PlayerStage application for use of the Playhouse tomorrow night:

A winning night addition call sent out by PlayerStage producer-director Martin Beck resulted in 72 persons showing up at the Polo Grounds clubhouse.

Surely such interest merits some support. Or does the bridge class pull 72 people? Or does the junior assistant double punched square dance class do it?

(Still needed by the PlayerStage group for its next production are musicians, particularly a pianist. PERS's Ed Newman is going to direct the music.)

VILLAGE SCULPTOR Glen Cargyle is well on his way to being the man most in demand hereabouts.

Superior Judge Merrill Brown gained an appointment for Cargyle to render an abstract, 34-foot has relief from the front of the new clubhouse in India.

Cargyle will deliver a masculine figure holding legal scales in one hand and a gavel in the other while leaning against a Roman pillar. (Alright, George Shaw, gimme a funny line.)

JOLIE GABOR and Count Ed de Sugerdy dined in at Beachcomber Wednesday and notified Pat O'Dea that the Cantonese cuisine is, as always, tremendous.

Incidentally, one of the highlights of the Washington press corps visit here was the songfest that O'Dea and Jim Hagerty got into at Ruby's Dunes one night. They both know all the parodies. (I promised Pat I wouldn't push it but if you want to know the best non-menu item the Beachcomber has, just ask me next time you see me.)

JOHN ROBERT CLARKE opens his third season of "Adventures in Living" tonight in the Biltmore Hotel here.

His topic—"The Importance of Being Imperfect"—gives some initial food for thought. It's also the title for the Clarke book the David McKay is releasing in February.

Don't miss Clarke—he's vital and alive.

NOTES OFF THE CUFF: Condolence for Tex Kidwell, whose mother is ill in Montebello. . . . Archie Long's band—a quartet that specializes in Dixieland but blows other ways, too—is scheduled to play for the dancers Saturday night in Blue Skies Trailer Village. . . .

Dick Henson, who formerly operated the Cantonese House, is back—starting tomorrow—in the Sportsman. . . . He'll call the place Henson's Rendezvous. . . .

THE NEW RENATO TRIO, which is currently holding forth at the Shadow Mountain Club in Palm Desert, features, from left, Renato, vocals and rhythm; Bill Early, piano, and Charles Cota, bass. Renato's Trio Impressive in Debut at SMC

The Renato Trio: Bill Early, piano; Charles Cota, bass; Renato, vocals and rhythm. At the Shadow Mountain Club, Palm Desert. Daily except Tuesday from 6:30 p.m. and Sunday for brunch, 12:30 p.m.

For the past two and a half years, to your reviewer's knowledge, a young man named Renato has struggled with his musical identity in a number of environments here on the Desert.

He had played no less than a dozen different clubs and cocktail lounges in a variety of formats—sometimes as a guitar-playing single, sometimes in duo, trio or quartet settings.

THE NEW RENATO Trio, which opened over the weekend in the Shadow Mountain Club's beautifully-appointed dining room, presents the vocal artist with his very first real star spot and Renato makes the most of it.

About him, Renato has gathered the best of available talent in key posts. Bill Early is a solidly-schooled pianist who can play for hotel band situations or swing on jazz and Dixieland. Charles Cota is perhaps the firmest bass player I've heard since I've been on the Desert, laying down a structure for Early and Renato that is undeniable.

IN THEIR ROUTINES for the Shadow Mountain Club, the trio must play for the widely diverse tastes of the 1,250 members and their numerous friends and guests. How well they accomplish this might be best gauged by Monday night's "German Night" in the club's "Around the World in 80 Meals" plan.

The trio not only played "Marianne," "Boulevard of Broken Dreams" and "Las Cruces" in one particular set, but also threw in a German folk song for good measure. The crowd loved it.

And, most notably, the trio appeared to be enjoying itself. Which might be the reason that for the first time since I've been listening to him, Renato sounds like star material.

— George Laine.

The Desert Sun is an independent newspaper dedicated to truth, accuracy and impartiality in the news; to the progress of the desert region; to the support of that which it believes to be right and to the defeat of that which it believes wrong.

Proposition No. 9--'Yes'

The Desert Sun recommends a "Yes" vote on Proposition No. 9.

Known as Assembly Constitutional Amendment No. 16, it would permit the Legislature to prescribe procedures governing claims against chartered counties, cities and counties, and cities, or against officers, agents and employees thereof.

This amendment would make applicable throughout California uniform claim procedures enacted by the Legislature at its 1959 General Session. The legislation repealed a total of 174 different laws governing claims against a city, county, school district or other local governmental agency, and substituted a simple, uniform claim filing procedure which any citizen can follow to collect what is owing to him by a local governmental agency.

The new law does not have statewide application because a few cities and counties are not governed by state law, but by local charters, and that is the reason for Proposition No. 9, which would bring these cities and towns under this system.

This Constitutional amendment was placed on the ballot by the unanimous vote of the Senators and Assemblymen present when the vote was taken.

The Desert Sun recommends a "Yes" vote on Proposition No. 9.

Proposition No. 10--'Yes'

The only criticism of Proposition 10 on the November ballot is that it possibly seeks to embrace too much in the framework of one Constitutional amendment. Yet all its provisions seem reasonable and timely and the proposal received the overwhelming endorsement of both houses of the Legislature.

We recommend your "Yes" vote. Principally, this proposition would add members of the State Bar and lay citizens to the judges on the Judicial Council. It would empower the Judicial Council to hold hearings, receive complaints and make recommendations to the Supreme Court on the retention or removal of any judge.

Thus the Judicial Council, practically, could enforce the retirement of a superannuated judge who might otherwise be unwilling to step out. It could protect the vast majority of ethical and dedicated judges by hearing complaints against the incompetent and non-performing few.

Proposition 10, with its other provisions, largely regulatory and definitive, has been strongly endorsed by the Conference of California Judges, the State Bar, and hundreds of lawyers and legislators.

We join with other endorsements and urge a "Yes" vote for Proposition 10.

The Michigan Races

TOURING MICHIGAN — One man digs the grave — another lies in it. This is the approximate situation between Michigan's Governor G. Mennen Williams and his successor, Lieut. Gov. John Swainson (D), or Prof. Paul Bagwell (R).

As the five-time head of the State Government, now spavined with debt and fundered with over-stuffings of "welfare" and bureaucracy, Williams has almost inevitably doomed the next man to be a miserable one-term wonder. To the itinerant reporter, the wonder is that either party was able to find a serious candidate.

MICHIGAN IS A ramblin' wreck. The Democratic party is indistinguishable from the Laborite Movement which is dominated by Walter Reuther and Gus Scholle. The result is a soak-the-corporation philosophy which is running big companies over the border to other Lake States. When a new plant is announced for construction, it will almost surely be a small one with little effect upon the job hunger.

The gone-crazy welfare system has brought about such lull as building more university dormitories than the enrollment warranted — requiring a tearing down of the academic standards to fill up the empty bedrooms.

THERE ARE 50 many people on the State payroll that Michiganders pay \$1,000 per capita to support them, as against \$400 in neighboring Ohio. With a sales tax limited to 3 per cent by the Constitution, no income tax and a sinking base for corporation taxation, the State will ballot this year on a proposition to

permit the legislature to raise consumer taxes.

Democratic and Republican candidates are essentially divided along the lines indicated by this economic crisis. John Swainson, a handsome and personable 35, who unexpectedly got the Democratic nomination after Secretary of State James Hare offended the Labor barons, appears to be a bosses' boy. He manages to take positions against realistic taxation and a Constitutional Amendment leading to legislative reapportionment which is gerrymandered for Republican domination.

THE LABOR BOSSES want to do it much faster. Swainson is the prisoner of the Laborite propaganda machine which cannot admit that anything much is wrong with Michigan after ten years of Williams.

Paul Bagwell, a somewhat loquacious ex-professor of public speaking and "communications," takes the other side on most debatable points. He is pro-sales tax, pro-reapportionment and promises to bring 90,000 more positions to Michigan.

IN 1958 BAGWELL held Williams to a 147,000 majority, very low among Democrats, and harped on the "economic climate" which makes big companies feel like convicts in a death cell — disinclined to read continued stories or make long-term commitments. The GOP Candidate now rejoices in the motto: "Bagwell Means Jobs."

Most people want to work, but many feel that a Demo-Laborite Governor will take better care of them in case of a depression. The Iron Law of State paternalism has been fastened upon this Reutherian stronghold to a degree that makes self-liberation an uncertainty.

A GERMAN - AMERICAN told how a relative in East Germany has joined the Communist party — it was a case of join or starve. A Michigan Negro, when pressed by a Bagwell manager to defy the UAW-CIO and come out for the Republican ticket, used almost identical language, saying: "Without a Union card, I don't work." The Laborite discipline in bloc votes teaches straight-ticket voting.

But this year there is a possible counter-force in action. Congressman Alvin Bentley, GOP Senate candidate, told his reporter: "Win or lose, I'm going to teach them to split a ticket."

THE LEAN AND keen Congressman spent nine years in the Foreign Service before entering Congress. Having served behind the Iron Curtain in Hungary, he made contacts throughout East Europe and has been most helpful to the Hungarian, Polish and German groups which have substantial votes that usually go to the Democrats.

Bentley, 41, is pitted against U. S. Senator Pat McNamara, 67, once head of a plumber's union and still an unpretending Laborite hack with a record of never opposing a spending bill. In a speech at Ann Arbor from the Kennedy campaign train rear platform, McNamara remarked: "I have one more point to make" — causing shouts from the crowd. "Oh, no!" — "You've made it."

But the old campaigner only grinned and waved. He had confidence — in that straight-ticket voting!

So today we give out With Anchors Aweigh It's Teddy R's birthday And Navy Day.

This is the anniversary of the birth of Teddy Roosevelt, one-time assistant secretary of the Navy. Later, as 26th President, he sent the fleet around the world in 1907 to let Japan, which was rattling a sword at the time, and other nations, know how we were fixed at sea. And since then his birthday has been the day on which Navy Day is celebrated.

THERE ARE PLENTY of Villagers who did a tour of duty in the Navy. All you have to do is glance at their forearms. In these warm days of short-sleeved sports shirts you can spot them by the tattoo marks.

Bud Conley was talking about the Navy and seeing the world. "Where'd you get that tattoo?" I asked. "Teheran?" "Nope, San Pedro."

REMEMBER when the State Motor Vehicle department first put out the plates with three letters and three numbers and there was an immediate campaign to have the letters SUN assigned to plates distributed to desert motorists?

At that time the state declared the plates only went as far as M in the alphabet and that plates starting with S would be a long time coming. So we didn't get SUN.

TODAY THE LETTERS have gone away up to U. Saw one Monday, UAW, which would be a good one for a union friend of mine. Only he works for the railroad.

But I have still to see Sun though scanning every auto as it passes me or vice versa.

But I did see a plate which would be perfect for this area: SPA.

WHICH BRINGS to mind: what are they, meaning the department of motor vehicles, going to do along about this time next year?

With the current plates already beyond T and the U plates showing up, that leaves V, W, X, Y, Z.

All right, so when the final plate, ZZZ 999 is issued, what's next?

By that time, maybe, the car bearing AAA 000 will be in the junk yard and they can start over.

YOU KNOW how every so often some company will send you one hare of its stock as a bonus. And pretty quick you get a dividend check for 27 cents or 48 cents. And the bank teller looks down his nose at you as he does out the dimes, nickels and pennies.

Well, a fellow was telling me the other day about a check he received. Seemed he had overpaid a utility or some firm, by one cent.

A FEW DAYS later he received a check from them for exactly one cent.

He took it to the bank and presented it to the girl.

She took a long look at it, then at him, and finally asked: "And how do you want this, sir?"

"Why, it's only a penny," he answered.

"Well," she said, "do you want it heads up or tails up?"

STAN DELAPLANE:

Life Begins at 40,000

In the cool of the evening, we drove out through the wild swirl of Rio traffic to the airport.

It is spring in Brazil and the air had the feeling of warm milk.

The great Brazilian city was a great glitter of emerald and ruby and amethyst light along the dark waters of the bay.

THE JET WAS out on the hardstand. The enormous new jets give you a feeling of boarding an ocean liner: The pattern line of window lights. The open doorways spilling warmth on the dark pavement. The field lights in lines of blue and the bright orange runway.

We took off in that morning surge of jet power — a more gradual rise than usual for we loaded for a 9 1/2-hour flight. Over the lights of Rio and northward toward the vast Brazilian jungle.

THIS IS THE complete turnaround. From the land of Spring to the falling leaves of Autumn in 9 1/2 hours.

It is a most pleasant change-over — there is only one hour difference in Rio and New York time. Your stomach does not do the flip-flops that you get on an east-west crossing.

For a long time I have been checking to see whether it is true (as I was taught), that water runs out of a bowl clockwise above the equator and counter-clockwise below.

IT WAS RUNNING counter-clockwise in my Rio hotel room all right.

I tried to check it again as we crossed the equator in the jet.

But Varig Airlines straps you in on takeoff and feeds you four solid hours before they turn you loose again.

THE JET WAS full of Americans and Brazilians on business — tourists have not discovered, yet, how simple it is to fly from one season to its opposite.

The four-hour dinner comes down the aisle in relays.

All of it is on carts. Varig carries four stewards and two stewardesses.

EACH COURSE is served individually — a stylish choice of caviar, pheasant under glass, pate de foie gras, chateaubriand

with mushrooms.

Carts passed by with a dozen different wines.

Carts passed with hors d'oeuvres.

CARTS CAME ALONG with elegant desserts and imported cheeses.

Carts rolled around with Brazilian coffee.

Dinner ends, I should judge, somewhere over Trinidad.

I got up and ran a little water out of the bowl. The results were inconclusive.

I HAVE TRIED this on ocean liners. On freighters. On piston-engine planes and on the jets.

Water should run out counter-clockwise. And, at the moment of crossing the equator, it should reverse. Otherwise what is the use of education?

Once I had a ship captain help me with this experiment. He blew the ship's whistle at the exact moment we crossed the equator. The water did not understand about education. It just went on running out the same way.

THE STEWARDESSES served dinner mints and the jet roamed on silently through the night.

And exactly 9 1/2 hours later, we let down through the dawn above the lights of New York.

And when I got to my hotel, the leaves were falling across the street in Central Park. The water ran out of the tub clockwise. And it was good to be home again.

secret testimony by administration officials proves that this country has sought withdrawal of some Nationalist Chinese troops from Quemoy and Matsu.

Fulbright, chairman of the Senate Foreign Relations Committee, told a news conference that if Vice President Richard M. Nixon, the Republican presidential nominee, persisted in making a campaign issue out of the Nationalist-held offshore islands, he would seek to have the testimony given in secret to the committee—made public.

THE ARKANSAS Democrat charged Nixon was engaging in an effort to make Sen. John F. Kennedy, the Democratic candidate, appear "soft on Communism."

Fulbright said the records of committee hearings prove that Kennedy was right in saying the administration has tried to persuade the Chinese Nationalists to reduce their forces.

Fulbright said Kennedy did not mean that U. S. policy had been to request Generalissimo Chiang Kai-Shek to abandon completely the islands or withdraw all his troops from them.

NIXON TUESDAY night accused Kennedy of falsehood in claiming that the Eisenhower administration had several times sent missions to persuade Chiang to "withdraw" from the islands. Nixon said the United States had never tried to persuade Chiang to abandon the islands.

Saund Drive For Hospital To Continue

Congressman Vows He'll Renew Fight For Corona Facility

Congressman Da S. Saund will renew his efforts to have Corona Naval Hospital reopened after the new administration takes office in Washington in January.

The 29th District Representative said he "will ask for a study to find a good use for the hospital next year. I am confident that this can be done regardless of whether the administration is Democratic or Republican."

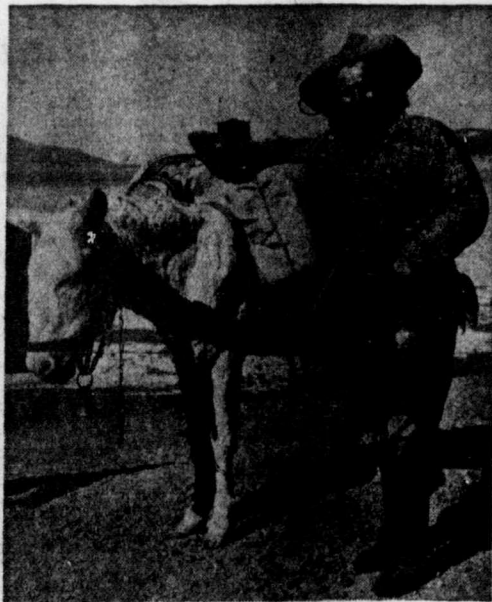

HE SAID HE HAD "resisted the persistent efforts of the Defense Department to dispose of the hospital to some private organization or another, probably for a song."

These disposal moves, he said, "followed on the heels of then Navy Secretary Gates' adamant insistence on closing the hospital and removing its valuable equipment three years ago." (Gates is now Secretary of Defense.)

Congressman Saund said, "Congress in 1957 appropriated funds to operate Corona Naval Hospital, but the Navy Secretary insisted on closing it, despite the strong objections of the California congressional delegation, Republicans and Democrats alike."

"I THEN WROTE a letter to the Secretary, asking him to leave the equipment in the hospital, for I hoped to obtain an appropriation to reopen it."

"I asked — and received — approval of that letter from the two California Senators."

Training Program for Debs

By the end of the 1960-61 season, it is expected that the Palm Springs Debs will be even more attractive than they are presently — if that is possible.

This week these 30 teenage models, who are an auxiliary organization of the Palm Springs Chamber of Commerce publicity department, had their first lesson in modeling from Barbara Foster, public relations director of the Harry Conover School. This initial session was conducted at the Palm Springs High School, as will be the subsequent lessons, which will be given to the Debs the third Monday of each month, continuing through March, 1961.

Conover training for the Palm Springs Debs will include instruction in correct posture, comportment, embracing proper placement of the feet, walking, sitting, standing; desirable attitudes for young ladies who are modeling, greeting prominent visitors, etc., with emphasis on the importance of cooperation, promptness, care of wardrobe and meticulous grooming.

In offering her professional aid as a community service, Mrs. Foster will also give the Debs individual attention on hair styling, makeup and fashion. Inasmuch as the Palm Springs Debs do a great deal of photographic modeling to

publicize the community, they will also be taught how to most advantageously pose for photographs.

At the conclusion of this week's modeling session, a concentrated six-week modeling course was given as a prize, with Bunny Willard the winner. Mrs. Inez S. Plate, director of the Harry Conover School, presented her with a certificate entitling her to this special training, gratis.

Marie Jambretz, president of the Palm Springs Debs, expressed the appreciation of the organization for the professional assistance being given them, which will enable the girls to be the best possible ambassadors for the Chamber of Commerce.

Camp Fire Honored by New Stamp

Postmaster General Arthur E. Summerfield will present the Camp Fire Girls with a four-cent commemorative stamp at the opening session of their golden jubilee convention at the Hotel Commodore on November 1, at 9 a.m. The convention will continue through Friday, November 4.

About 3,000 delegates will attend from all over the country, and they will arrive this week for pre-convention meetings starting Saturday. Delegates will include a large number of men, for men serve as board and committee members and sponsors, and contribute time teaching skills.

Although the convention is primarily for adult volunteer and professional leaders, 500 Horizon Club girls, the high school age group of Camp Fire, will attend.

The theme of the golden jubilee celebration is "The World Around Her — She Cares, Do You?" Camp Fire Girls was founded in South Casco, Maine, in 1910 by Dr. Luther Halsey Gulick of New York City, and it is the oldest non-sectarian, leisure-time organization for girls in the United States.

When it's cleanup time at the cookout, lay a cloth soaked in hot water and heavy duty detergent on the charcoal grill. Let the food particles soften, and then wash with a brush or heavy cloth.

The only supper club in the entire world to have a full-time dressmaker in the kitchen is the Manor Room at Howard Manor. Distinguished Parisian couturier Pierre Cliché is in attendance at all times in the pantry, where he performs such functions as designing parties to put on the lamb chops... and adding chic little accents to potatoes with their jackets on.

Bike Riders Must Obey Road Laws

CHP Tells Bicyclists Road Responsibility Their Work, Too

INDIO — Bicyclists have every bit as much responsibility to adhere to motor vehicle laws as do automobile drivers, Capt. Lloyd Watson commander of the California Highway Patrol's Indio Area, said this week.

"Some riders operate their bicycles as though immune to the laws which govern vehicle operation. Actually, it is incumbent upon them to know and observe all traffic rules," he said.

"IN ADDITION, there are several tips which can help make your bicycle trip safer. First of all, always ride bikes in single file, if there are two or more in a group. Riding abreast spreads bikes across the roadway, greatly increasing the chances of a car hitting a bicycle.

"Second, never ride double on a bike built for one person. The instability resulting from the added weight may cause the bike to take an unexpected turn — right into the path of a car.

"THIRD, KEEP your bike in good condition. Check the brakes periodically, lubricate it, but don't make alterations which may increase the danger of riding. One recent fad has found many youths raising the handlebars to a point where the grips are above the level of the head. It takes measurably longer — up to 15 feet — to stop a bike when the handlebars are that high," Capt. Watson said.

"Fourth, when riding at night, you are required to have a white light visible for 300 feet, on the front of the bike, and a red reflector (or light) on the back, visible for the same distance to the rear.

"Just as in driving an automobile, alertness, courtesy and attention to the laws of the road contribute to the safe operation of a bicycle."

California JC Goals Criticized By High Educator

YOSEMITE NATIONAL PARK, (UPI) — California junior colleges were criticized yesterday for offering wider educational goals than they "can ever hope to achieve."

The criticism came from Dr. Samuel Gould, chancellor of the University of California at Santa Barbara, at the annual fall conference of the California Junior College Association.

Administrators from 72 institutions were in attendance.

Gould told them he found himself "excited but baffled, moved yet mystified, hopeful and yet horror-struck" as he viewed the problems and progress of their institutions. He contended the inability to limit objectives creates lack of unity among students and faculty, a "caste system" and a faculty intended "to do all things to all people."

Honey of a Fact — BURLINGTON, Vt. (UPI) — Enoch Tompkins, University of Vermont assistant agricultural economist and president of the Vermont Beekeepers Association, said "It's the nectar which makes the honey" produced by bees. He said, "The flavor, aroma and color of honey varies with the kind of flowers from which the nectar is taken."

Nobel Literature Prize Awarded

STOCKHOLM, Sweden (UPI) — French poet-diplomat Alexis Saint-Leger, who once said "my name does not belong to letters," won the 1960 Nobel Prize for literature yesterday.

The 73-year-old Frenchman, a longtime resident of the United States and better known under his pen name of St-John Perse, was awarded the distinguished prize by the Swedish Academy of Letters for the "searing flight and evocative imagination of his poetry, which in a visionary fashion, reflects the condition of our time."

The honor includes a \$40,000 cash award.

Bike-Riding Jazzman Jailed on Gun Rap

INDIO — Sheriff's officers have arrested 33-year-old transient jazz pianist Austero Silverna, on charges of carrying a concealed weapon as he peddled down Highway 111 near Rancho Mirage early Sunday.

Silverna was apprehended at 1:45 a.m. Sunday as he rode a bicycle near Rancho Mirage, where a burglary had been reported earlier.

Silverna explained that he is a transient jazz pianist and had just finished an engagement in a nearby hotel. Wrapped in a blanket, tied to the bicycle handlebars, was a 1905 model .22 caliber revolver and 34 rounds of ammunition.

The suspect was detained for questioning and arrested today when New Jersey law enforcement officials reported Silverna had served a prison term there 14 years ago.

Banowit Gains Developing Firm Director's Post

SAMUEL W. BANOWIT

Samuel W. Banowit, president of National Properties, Inc., Los Angeles, developer of the Palm Springs Spa, has been elected to the Board of Directors of Christiana Corporation.

The action was taken today at the company's annual meeting in Wilmington, Delaware.

ACCORDING TO LEWIS W. Douglas, Jr., Christiana Corporation's president, Banowit's election to the board centers on a recent merger negotiated between Christiana and Huntington Harbour Corporation to finance and develop the recently announced \$100 million Huntington Harbour project. Prior to the merger, Banowit was Board Chairman of Huntington Harbour Corporation, which was an affiliate of National Properties, Inc.

In September, Christiana acquired 80 per cent of the issued and outstanding stock of the Huntington Harbour Corporation in exchange for 350,000 shares of Christiana common stock. Banowit retained the remaining 20 per cent.

SITE OF THE PROJECT is an 820 acre ocean front, unimproved land parcel located between Seal Beach and Huntington Beach, 25 miles south of the Los Angeles Civic Center. Originally, the property was known as the Los Amigos Gun Club. Currently, plans call for the development of the property as a live-in-type marina, providing luxury home sites in combination with marine facilities. Those locations fronting on salt water channels will provide home owners with direct access to the ocean.

Banowit and Douglas said that the project, for which plans will be completed within 90 days, will create a planned exclusive residential section in addition to apartment houses, shopping centers, beach areas and a yacht club.

"This new concept in marina-type living will combine the finest aspects of ocean front recreational facilities with attractive home sites for year-round living. Our surveys indicate the great need for the facilities to be offered by a live-in type marina development," Banowit said.

More than two-billion pounds of sausage have been processed annually since 1951 at federally inspected plants. Sausage makers can utilize cow and bull carcasses that would find little acceptance as fresh cuts.

LOCKWOOD TALKS AT BOYS' SESSION

PASADENA — A two-day training institute for Boys' Club of America workers in Southern California, Arizona, Utah, Hawaii and Las Vegas began here in the Pasadena Boys' Club today, with the closing panel sessions slated for Thursday afternoon.

Ray Lockwood, executive director of the Boys' Club of Palm Springs, will join three other California Boys' Club directors in a climactic panel on "Moral and Ethical Values" at 2 p.m. Thursday.

Lockwood said that panel will discuss the problems of society in dealing with growing boys; the problems of service agencies with youngsters, and the impact of personal values of social workers in dealing with the youth they attempt to guide. With Lockwood on the panel will be Al Secrist, Santa Monica director; James Blaine,

director of the All-Nations' Boys' Club; and Henry A. Culbertson, executive director of the Boys' Club of Pasadena.

Other discussion groups and study sessions will deal with Boys' Club policies and practices; techniques of problem solving, and the creation of constructive environments for guidance work.

The Palm Springs club has more than 400 members, from among the 600,000 youngsters served by Boys' Clubs of America.

Backstrand Gains Praise For Safety

President's Team For Traffic Safety Lauds Legislator

Assemblyman Lee Backstrand's legislative work in the field of highways and traffic safety received further national attention this week in a letter William Randolph Hearst, Jr., chairman of The President's Committee for Traffic Safety, sent unsolicited to the Riverside County legislator.

Backstrand, currently seeking election to the county's State Senate seat in the Legislature, is a member of this committee. He is also chairman of the Assembly Interim Committee on Transportation and Commerce now engaged in factual studies bearing on ownership, use and operation of motor vehicles and the impact of these forces on traffic safety.

STATING THE President's committee has followed with interest the work being done by Backstrand's committee in evaluating, on a long term basis, the needs of California in the motor vehicle field, Hearst went on to write:

"This is a new and forward-looking approach in a field which heretofore has relied mainly upon year-to-year assessment of needs without full regard to the dynamic growth of highway transportation."

CHAIRMAN HEARST said his committee was so impressed by this approach that it intended to recommend it to all States in the forthcoming revision of the Action Program.

"You and your associates," concluded Hearst, "are to be commended for undertaking a program that will lead to a better understanding of the motor vehicle problem involved and result in public acceptance of the needs that must be met in the years ahead."

ALMANAC

Today is Thursday, Oct. 27, the 201st day of the year with 65 more in 1960.

The moon is in its first quarter. The morning star is Mars.

The evening stars are Venus, Jupiter and Saturn.

On this day in history:

In 1787, Alexander Hamilton, John Jay and James Madison, writing under the common pen name of "Publius" began their series of essays in the New York Independent Journal to gain support for the ratification of the Constitution.

In 1858, Theodore Roosevelt, 26th President of the United States, was born in New York City.

In 1871, William Tweed, political boss of New York City's Tammany Hall, was arrested, charged with defrauding the city of millions of dollars.

Draw Needed for Panorama Water Posts

Directors Office Terms Settled by County 'Gamble'

With the five directors elected to the new Panorama Water District each receiving the same number of votes, the Board of Supervisors decided this week by the drawing of their names on slips of paper, which directors will hold four-year terms and which will hold two-year terms.

Because the entire property of the 640-acre district was under one ownership, the Panorama Partnership, an undivided one-sixth interest was given to six people chosen from the five partners and their wives. This was to comply with a law requiring the directors and an assessor, treasurer and tax collector to be property owners.

EACH CANDIDATE got a total vote of 37,700 based on one vote allowed for each dollar of assessed valuation of the interest which the title holder has.

Of the five directors elected the drawing resulted in four-year terms for Jacob W. Silverman, Ann Kagan and Evelyn Silverman, and two-year terms for John Kagan and Sam Manchel.

HENRIETTA MANCHEL was elected assessor, tax collector and treasurer, thereby assessing the property, collecting the tax based on the assessed valuation, and handling the receipts as treasurer.

The one-section district lies west of Desert Hot Springs, south of 12th Avenue and east of the Morongo highway. The originally proposed name of the district, Palm Springs Water District, was changed to avoid conflict with the existing Palm Springs Water Company.

Anger or fear can cause a cerebral stroke, Dr. Eliot Corday and associates of Los Angeles report.

AMERICA'S LARGEST SELLING 6 YR. OLD KENTUCKY BOURBON

"It was nothing... just a fire in the stove"

Are you sure that's all it was, Jim? You know, we might look at it as an exciting demonstration of municipal bonds at work!

Remember voting for the bond issue to build a new firehouse several years ago? At the time you said, "This is going to cost me money, but I guess we've got to have it." Then, when you renewed your fire insurance and found the rate was lower, you were pleased.

Think of what you saved today, Jim! Insurance money can't replace what you came near losing. Fortunately, the fire was nothing because municipal bonds gave your community the cash to put engines, equipment and firefighters near your house.

The Bank of America and its associated investment dealers bid on virtually all municipal bonds issued in the State because we have confidence in the future of California and communities

like yours. These bonds finance fire-fighting equipment, schools, city government buildings, water and sewage facilities, etc.

Do you know what we at Bank of America do with the municipal bonds we buy? We add some of them to our own investment portfolio—and make the rest available for purchase. No one knows better than you do—living right there on the scene—what a sound investment they are!

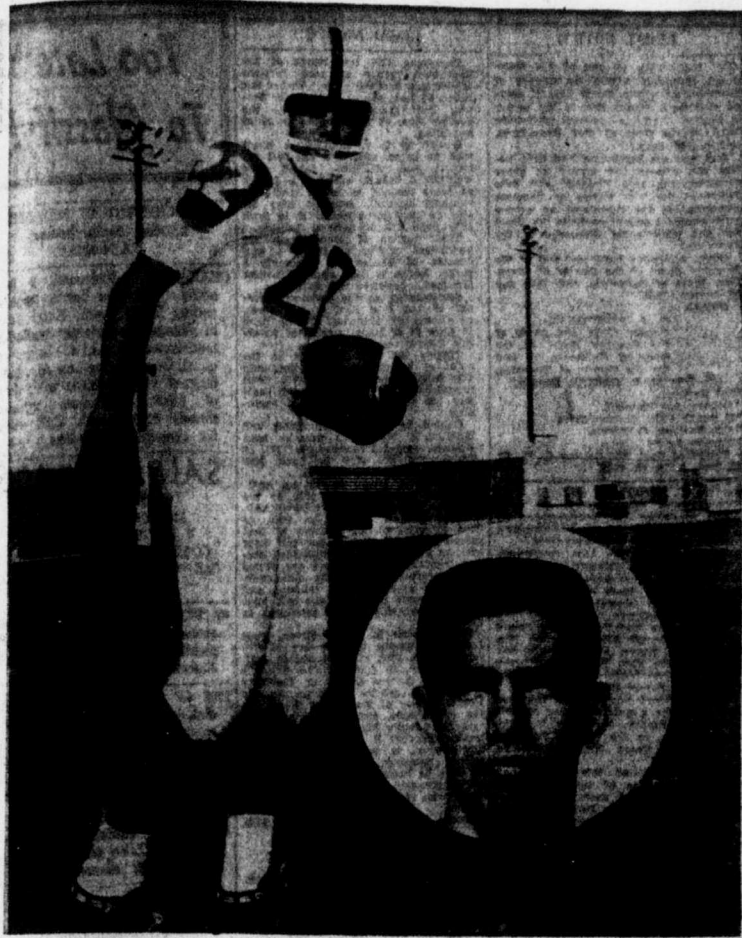

If you'd like to make an investment in your community secured by its business, industry and by your neighbors, we suggest municipal bonds issued in your area. They're available in denominations of \$1,000, pay you a good return and the income you receive is tax free. The manager of your local branch of the Bank of America will be glad to give you full information, or you may write to

MANY HAPPY, O'MALLEY IS MAD

Mixed Reactions to AL Move to Coast

NEW YORK (UPI) — The American League's expansion to a 10-team circuit in 1961 was greeted enthusiastically in the three cities involved today but drew loud squawks from Walter O'Malley of the Dodgers and Continental League founder William Shea.

Civic officials in Minneapolis-St. Paul, Los Angeles and Washington cheered the American League's bombshell announcement and indicated all-out efforts to surmount any obstacles. At the same time O'Malley shouted that "another full baseball schedule would wreak havoc in Los Angeles" and Shea called the move "one of the lowest blows below the belt in the history of sport."

THREE KEY OFFICIALS of the federal government—Sen. Estes Kefauver D-Tenn., Rep. Emanuel Celler D-N.Y., and Rep. Kenneth Keating R-N.Y.—expressed approval of the move which means that the American League will operate as a 10-team circuit with a 162 game schedule for each team in '61.

The National League, which voted expansion into New York and Houston in 1962, said through league president Warren Giles that the American League's surprise action would not change their plans. The two major leagues thus will present uneven alignments in 1961 for the first time since the American League was founded in 1900.

IT WAS OBVIOUS that American League officials believed their invasion of the lush Los Angeles territory "evened the score" for the National League's return to New York. The AL drive to put a franchise in Los Angeles was spearheaded by Dan Topping and Del Webb, co-owners of the Yankees. Webb is chairman of the AL's expansion committee.

AL president Joe Cronin stunned the baseball world late Wednesday with the announcement of the circuit's three-pronged realignment move which:

- Transferred the Senators "lock, stock and barrel" from Washington, D. C., to Minneapolis-St. Paul.

—Established a new franchise in Washington, thus keeping major league baseball in the nation's capital.

—Invaded the rich Los Angeles area and thus matched the rival National League as a coast-to-coast circuit.

WEBB, WHO SAID emphatically "we are on our way to 12 teams," said that further details of the expansion would be worked out at the league's next meeting here, Nov. 17.

O'Malley strongly questioned the invasion of the Los Angeles territory and said "we had hoped to get our own problems in pioneering the territory, in building our stadium, behind us before the relative move in."

"Another full baseball schedule would wreak havoc in my opinion and I'm sure that the American League will not want to offend the earlier settlers and their fans," he added.

Bill Nicholas, general manager of the Los Angeles Coliseum, said, however: "We cooperated with the Dodgers, so why wouldn't we cooperate with the others?"

Predict Records Will Fall

NEW YORK (UPI) — The immortal Babe Ruth, whose home run records have withstood a 30-year onslaught by two generations of musclemen, may be reduced to mere mortality in future record books with the advent of a 162-game schedule.

There can be little doubt that with 368 games tagged on to the major league schedules each year due to the expansion, many records will go toppling faster than managerial jobs. The most vulnerable of the statistics will likely be those of attendance and individual club records.

But it is the glamor numbers, such as the legendary 60 and "insurmountable" 714, that will draw most public attention. The 60 represents Ruth's single season home run high, while the 714 signifies his career total.

HANK GREENBERG hit 56 homers in 1930 and Hack Wilson slugged 56 in 1930. Either one might have passed Ruth's season high if he had had eight extra games. The next man to have a comparable year at the plate could break the 35-year-old milestone with the aid of the increased schedule.

No one has yet come near the Bambino's career mark, the closest being Jimmy Fox, with 534, but future stars who last 15 years in the big time will have at least 120 extra games in which to aim at the record once thought unreachable.

Campbell Far in Pass Receiving Lead in Big Five

NEW YORK (UPI) — Hugh Campbell of Washington State is running far ahead of all major college rivals in pass receiving, but Dick Fitzsimmons of Denver enjoys just a microscopic edge over Pittsburgh's Fred Cox for the punting leadership.

According to official statistics released today by the service bureau of the National Collegiate Athletic Association, Campbell has caught more passes (39) and carried them further (335 yards) than anyone else. His 12-catch margin over runner-up Bill Voss of Hardin-Simmons is the biggest lead ever held by a receiver at this stage of a campaign.

Campbell, who has led pass receivers for four straight weeks, also leads in aeriels completed for touchdowns with six.

Haney Likes Desert for Training

Fred Haney, who led Milwaukee to two National League championships and a World Series title, thinks the Palm Springs desert area is ideal for spring training for major league clubs.

"It has advantages over Florida," he said while relaxing at Palm Desert where he is a frequent visitor.

He cited the climatic advantages, practically no rain and said transportation would be no more of a problem than in Florida.

TWO SITES are under consideration by Walter O'Malley of the Los Angeles Dodgers, who are committed to train again at Vero Beach, Fla., next spring. One is at Thousand Palms and the other in the Salton Sea area. Haney believes that if two ma-

for league teams trained in this vicinity there would be plenty of exhibition baseball as there are four teams now training in Arizona.

THE DODGERS with their farm clubs would require seven baseball diamonds and housing for hundreds of personnel. These, it is understood, have been offered them at both sites now under consideration.

As for attendance at the exhibition games, Haney believes this area can match Florida. "We never expected more than 4,000 or 5,000 people at games there," he said.

DURING A SPRING training game when Seattle was training here, the New York Giants up-

peared at the Polo Grounds and a record 7,000 saw the game.

Haney managed the Hollywood Stars in the Pacific Coast League for three years, then went to Pittsburgh and from there to Milwaukee, winning two pennants and a World Series.

He and his wife have been desert enthusiasts for years.

Brown Says He'll Do a Job On Andrade

Champion Angered By Cocky Attitude Of Title Challenger

LOS ANGELES (UPI) — Lightweight champion Joe Brown, holding court as a member of boxing's bluebloods, Wednesday promised he would "do a job" on challenger Cisco Andrade Friday night at the Olympic Auditorium.

The champ, who fights out of Houston, Tex., and owns a sports center in Louisiana, was angry at reports Andrade was going to reserve the San Jacinto training camp for Mexicanistic artists only.

Even if the story is untrue, Brown said, "he's still a cocky guy and I'm going to do a job on him. He will be very lucky if he gets knocked out early. I might carry him eight or nine rounds but I'll cut him up."

Brown ended his training Wednesday for the 15-round title bout.

LAS VEGAS, Nev. (UPI) — Allen Geiberger, the slender slammer from Santa Barbara, Calif., now golfing out of Studio City, Calif., today led the top 40 pros into the final rounds of the \$10,000 Sahara Pro-Am Golf Tournament.

The former University of Southern California All-American shot a 5-under-par 67 Wednesday to grab a single-stroke lead at 135. Jerry Barber, Los Angeles, came within one stroke of Geiberger with a course record-tying 7-under-par 68.

NCAA Puts Kansas U. On 2-Year Probation

SAN FRANCISCO (UPI) — The high cost of financing Wilt (The Stilt) Chamberlain and other less-publicized athletes today put University of Kansas' sports program on two years of probation by the NCAA.

The policy-directing Council of the NCAA, finishing off three days of sessions Wednesday, made these decisions:

—Lifted the probation bans on University of Mississippi, North Carolina State and University of Wyoming.

—Placed Kansas' basketball team on probation for two years and the football team on probation for one year. The national championship track and field team was not involved.

Walt Byers, executive secretary of the NCAA, refused to name the players involved in the investigation that led to the probation for Kansas. But A. C. (Dutch) Longberg, athletic director for the school, felt no such qualms.

The basketball ban was brought

about because "a player was given on a car with a net value of \$1,564" plus mechanical work he did not pay for.

"This was Chamberlain," said Longberg. The incident occurred in May of 1957.

The football ban came because a non-university man, an alumnus, took a player from another school to the All-Star football game in the summer, and because the university had attempted to recruit three student-athletes from another university without first getting permission from the athletic director of that school.

Cuba School Directive Hits Catholics

HAVANA (UPI) — Directors of Cuba's Roman Catholic schools have been summoned to an urgent meeting Saturday to coordinate opposition to a proposed education law whose opponents say it would make children aged 6 to 15 virtual wards of the state, it was reported today.

THE PROPOSED LAW was said to provide that priests and nuns could continue to teach in Cuba only as employees of the state, not subject to the direction, supervision or discipline of religious orders.

Insiders said the bill would empower the Education Ministry to decide where and by whom children in the 6- to 15 age bracket shall be educated — a system which observers said follows the Russian pattern.

The church is expected to argue that these provisions limit religious freedom by depriving parents of the right to channel the education of their children along Christian lines.

SUPPORTERS OF the measure argue it would provide "truly Democratic education, without privilege or discrimination."

The government attitude was reflected by an editorial in the official press charging that priests "at the service of oligarchies" have been trying to "use the Catholic faith to divide the national conscience."

LETTERS OF COMMENDATION from the National Merit Scholarship Corporation were presented to Joanne Thompson and Leslie Siegel by Dr. Charles Webster, principal of Palm Springs High School, with Palm Springs' own commendations. Dr. Webster pointed out that the girls were in a group of 24 from Palm Springs High School—and approximately 500,000 in 15,000 high schools across the nation. The girls rated well in the top five per cent of the students tested, with only 28,000 letters of commendation issued. Leslie, secretary of the Senior Class and co-chairman of the Young Democrats, plans a college political science major; Joanne plans on nuclear physics major. County Seeking Drug Contracts With Hospitals

To hasten the revision of contracts between the county and local hospitals in respect to charges to the county for drugs, Supervisor George Berkey asked this week that the administrative officer submit a report and make a recommendation to the Board of Supervisors as soon as possible.

At the suggestion of Supervisor Fred McCall the administrative officer was asked to work with the hospital commission in arriving at a recommendation.

Administrative Officer Robert T. Andersen said later that the present county agreement with private hospitals calls for reimbursement to the hospitals for the cost of drugs. He said the problem is that the hospitals say that there are additional charges involved in the dispensing of drugs for which they should be compensated.

According to Andersen, it is argued that there are costs involved in pulling one pill out of a bottle containing 100 pills. The cost of the 100 pills may be \$10, but if only one pill is taken out of the bottle and administered the cost through handling becomes more than 10 cents, according to hospital managers.
